

William Stewart

(281) 844-5196 | d.j.stewart7873@gmail.com | github.com/LonelyIsle | linkedin.com/in/william-stewart-0b46112b3

Education

University of Houston

Bachelor of Science in Computer Science, Minor in Data Science

Houston, TX

Dec 2025

Lone Star College

Associate of Science in Computer Science

Houston, TX

May 2022

Technical Skills

Languages: Python, TypeScript, JavaScript, Go, C++

Frameworks & Libraries: React, Node.js, Flask, Pandas, NumPy, scikit-learn

Developer Tools: Git, GitHub, VS Code, Jupyter, MySQL, Azure, Vercel

Projects

NLP Search & Ranking System

| Python, NLP, Flask

Aug 2025 - Dec 2025

- Developed a document search system that interprets natural language queries and ranks results using vector-based similarity.
- Implemented preprocessing pipelines including tokenization, stopword removal, and TF-IDF / embedding-based features.
- Evaluated retrieval quality using precision and recall on labeled datasets.
- Exposed search functionality through RESTful APIs built with Flask.

Lungevity

| Python, Pandas, scikit-learn

Aug 2025 - Dec 2025

- Built a predictive modeling pipeline to analyze health-related data and estimate longevity-related outcomes.
- Performed exploratory data analysis, feature engineering, and data cleaning on structured datasets.
- Trained and evaluated supervised learning models including linear and tree-based approaches.
- Measured model performance using accuracy, precision, recall, and confusion matrices.

Piney Point Farm

| TypeScript, Go, Web Development

Nov 2025 - Dec 2025

- Built and maintained a production website for Piney Point Farm using TypeScript and Go.
- Developed a clear public-facing interface for farm information, visitor needs, and site navigation.
- Organized project code under the Clydesdale Systems GitHub organization for maintainability and collaboration.
- Published the live site at pineypointfarm.com.

Experience

Reef Sensing

Operations Technology Specialist

Houston, TX

May 2026 - Present

- Support and update company websites, maintaining public-facing content and operational web resources.
- Assist with inventory tracking and shipping preparation to support accurate outbound order fulfillment.
- Test sensors for validation before shipment, verifying readiness and identifying issues before delivery.

Bluewater Seafood

Shift Manager

Houston, TX

Aug 2024 - Present

- Supervise front-of-house operations during service, coordinating staff and resolving customer issues to maintain efficient workflow.
- Lead team operations during high-volume service periods, ensuring accurate order handling and strong time management across staff.
- Collaborate with kitchen and front-of-house employees to resolve issues quickly and maintain service quality.
- Support shift scheduling, team coordination, and operational decision-making during busy service hours.
